HORSHAM CUP A CRUISE FOR TANABI BROMAC

Tanabi Bromac showed his true colours setting a track record when he easily won the \$50,000 Horsham Cup..

Winless in eight previous starts this season he had continually finished on after getting clear late with his most notable placings and "still looking for room" fifths in the Group 2 Cranbourne Cup and consolation of the Victoria Cup.

The son of **Live Or Die** and **Tanabi** went to the lead from the start, slipped clear at the 400m and never gave anyone else a look-in. He set a track record of 2.00.2 from a stand for 2700 metres, shattering the previous mark set by **I Am Sam** of 2.01.9. He is now guaranteed a start in the up and coming Hunter Cup.

The \$33,750 share of the \$50,000 stake saw **Tanabi Bromac**'s lifetime earnings break the \$300,000 barrier and the win was his 16th from 39 starts to date. The classy and consistent pacer has given his connections a cheque in all but three starts to date (placing second in the **Group 1 Tasmania Cup**, third in the Group 3 Popular Alm FFA), and this recent win was his ninth black type "first three" finish. He was one of the top 3YO's of his year competing in four derbies, winning the Victorian, taking third in both the New South Wales and Australian editions and finishing 4th in the Tasmanian Derby.

He is the first foal of the unraced **Village Jasper** mare **Tanabi**. Her second foal is the two year old filly of last season **Tiana Bromac** who placed two promising 4th 's in her starts to date, the last being a 2:00 mile. **Tanabi** also has an unnamed **P Forty Seven** current season's two year old which is yet to be registered by her connections. She is currently in foal to **Art Major**.

This is a family that has been based in Australia since **Tanabi**'s grandam **Black Debate** was exported there in 1990.

More on the pedigree of Tanabi can be seen by viewing her in our Broodmare Pedigree's section.
