EASY 1:54 VICTORY TO DAVBRO BROMAC

Davbro Bromac returned to his top July form at the Vernon Downs track when he led throughout to win easily there last Saturday night.

The **Falcon Seelster** gelding drew 8 behind the gate but was clear in the lead by the end of the first quarter and was never headed after, hitting the line in 1:54 flat.

A fast first quarter of 27.2 saw him level out a 30 second quarter and breather to the half before increasing the tempo over the third quarter and rounding off the journey with a 28 second flat last 400m.

It was his third win of the year and his ninth in North America. He won 7 races in New Zealand before being exported last year. To date his fastest win was at Cal Expo in October of 2008 and he is closing in earnings of \$100,000 lifetime.

Davbro Bromac is the second foal of the unraced **Bo Scots Blue Chip** mare **Desibo** whose first three foals have all won in 1:54 or faster.

Her first foal **Duke Bromac** won 6 races and took a time of 1:53.4 whilst her third foal, **Derek Bromac** - a full brother by **Holmes Hanover** to **Duke Bromac**, won 13 races and over \$110,000 in earnings on the way to a lifetime mark of 1:51.4.

Visiting the court of **Mystical Shark** for the next two seasons saw one unraced qualifier the result, but then she revisited **Holmes Hanover** and came up with sub 1:59 winning mare. Luck eluded her at the same sire the following season when the resultant colt died, but she has since produced a filly to **Artiscape**.

Although unraced, **Desibo** has come from a family that packs speed with her half brother **Abdias** a past NZ record holder over the mile and a **former NZ 4YO Pacer of the Year**. Her unraced half sisters **Diana Bromac** and **Desinda** have been responsible for a number of sub 2:00 fillies including a **Southland 3YO Filly of the Year** in **Pam Bromac** p, 1:57.2, **Diamond Bromac** p, 1:58.4 and **Pricilla Bromac** p2, 1:57.8Q amongst others, as well as a recent **Southland 2YO Pacer of the Year** in **Dustin Bromac**, placed in 1:58 as a 2YO but fated for much of his debut season with horrific draws.

More of this family came be seen by viewing any of our broodmares starting with "D" in the broodmare section.
